August 26th

Dear Professor Brody

I am writing to you upon my mother's advice. I believe you have been corresponding with her about our dear friend Vives.

My reasons for this letter are not this time musical: I am looking again for a teaching job in the U.S, and thought you might know someone at NYU in the French Department.

I am including a curriculum vitae you might want to show to whom it may concern.

Mother is sending her regards

Yours sincerely

F. I. Guile
