Dear Ula —

I heard that your dear, sweet mother had gone and I want to tell you how much I enjoyed knowing her and seeing her occasionally in your family circle. I shall miss seeing her, with her alert, interested participation in all that was happening.

It seems so difficult to

see you now. Next winter I may come down to New York for a longer stay but it is not easy to leave the peace and quiet of my life here. Give my love to all of your nice family and tell Alma and Johnny that next winter I will not be away and therefore hope that they will come and spend Easter vacation with me again. I loved the pictures of you all in the Steinway Mews! My love to you especially — Ruth —
